

Farming: The impact of new technology

How has new technology changed farming?

Topic Overview

Year 4 will study the changes in farming over its modern history from manual, mechanical and through to electronic.

They will investigate how the changes have impacted on, and shaped farming over the years—in both positive and negative ways.

How it teaches 'Community'

-

How it teaches 'Identity'

-

How it teaches 'Connections'

-

Project Finale

Children will create 3 pieces of artwork for 3 different eras of farming, along with an explanation text summarising their investigation work.

The art and writing will go on display for parents to view and uploaded to an art gallery on the school website.
